SURNAME INDEX OF THE ALBUQUERQUE, NEW MEXICO, DAILY CITIZEN NEWSPAPER

1895

INTRODUCTION

The format for this index was developed to cover the major news items appearing in the Daily Citizen newspaper – births, deaths, marriages, interesting items – and mainly to find ancestors who were thought to be in the area. This is an index of the names appearing in the article, and covers only those persons of either New Mexican origin or who participated or appeared in New Mexico. In other words, news articles covering an event occurring outside New Mexico, but involving a New Mexican, are reported here; persons from some other state but participating in an event in New Mexico, also are included. The compiler attempted to include any reference that could possibly lead to finding members of a family or places of birth. A relative visiting from some other state would be included in this index.

There are many newspapers in the state, and they shared news events. Many events and persons from around the state are included in the Albuquerque newspaper. Hotel arrivals in the major Albuquerque hotels were reported almost daily; therefore, an individual's name may appear many times throughout the year, but only a line stating that they were in town. The compiler did not include every report such as this, or the work would have become unmanageable. Many mentions of prominent persons and politicians who were in the news quite often would have made this publication immense, and are not included unless the event could lead to other genealogical research.

FORMAT

The index begins with the first mention of a person. Subsequent appearances are not indexed unless it changes the original information in some way. For example, _____ HENRY would be noted for date and page first appearing. Later, an article might add that it was HOWARD HENRY, who resided in Albuquerque and was a court stenographer. That item is referenced. Later, if HOWARD W. HENRY, a court stenographer from Albuquerque, visited his parents in Dodge City, Kansas, that item is also referenced. A short sentence stating that "Mr. Henry, the court stenographer, went to Santa Fe today" is not indexed for there were many of this kind of item. If there wasn't much happening, the compiler indexed other dates that show some tidbit of information about the person.

In an effort to aid identification, the compiler has included the apparent residence of the party and the indicated occupation. Users are cautioned to check the source data and make these determinations for themselves, as there may be some unintended error in interpretation.

The microfilm containing this newspaper is on file at the Special Collections Branch of the Albuquerque Public Library, 423 Central Avenue NE, Albuquerque, New Mexico 87102 (Phone 505-848-1376).

Many of the towns had long names and space was limited in the printout for that name. I have taken the liberty of abbreviating some town or village names, and a list of those abbreviations is found elsewhere in this preface.

CAVEAT

Almost all papers had issues that were improperly microfilmed. Often a day might be incomplete and then the complete issue would appear intermixed with a later date. If a name is indexed on a particular and the microfilmed page is virtually blank, browse to the next few frames and that page may be copied again and there it is readable. Check a few frames before and after to make sure the pages are in order and the issue is complete.

A list of delinquent tax payers was printed each year and in 1895 this appeared in the August 23rd issue. These are difficult to read because of the small type and many names. The compiler has attempted to narrow your search by indicating the page followed by a letter, i.e. Aug 23, p.3A. This is an attempt to shorten your search for the name by using the upper left quarter section of the page as A; the lower left quarter section of the page as B; the upper right quarter section of the page as C; and the lower right portion as D. The compiler also took the liberty of listing only those names of the delinquent tax payer and not all the names given as boundaries to property.

FURTHER AIDS TO RESEARCH:

DESIGNATIONS such as "(H) Jan 2, p.2" and "(L) Jan 2, p.3" indicates that the person named was on a hotel registration list (H), or had a letter to be picked up from the post office (L). Hotel registrations in the city's principal hotels contain only the name and the town where the party was from. It appears the word "from" was translated loosely. It often appears that the person was putting exactly that - where they came from last - and not the name of their home town. Therefore, the researcher is cautioned to view this information carefully when attempting to locate the person's "home".

PRECINCTS: A listing is included of the various precincts in existence and their location.

AREA NEWSPAPERS: Many items were "lifted" from other newspapers in the area and a byline is given for that newspaper. A listing is enclosed of the city in which that newspaper was published.

MAP: In an effort to help locate the many small towns, ghost towns, listed as homes of our ancestors, I have prepared a map showing the approximate location of many of the towns in New Mexico in 1889-1895 era. I hope you find it useful. Another fine publication for locating these towns is "The Place Names of New Mexico" by Robert Julyan, University of New Mexico Press, Albuquerque.
